Bricks of Opportunity Campaign

Building a Lifetime of Possibility

The Bricks of Opportunity Campaign is a unique chance to show your support and leave your permanent mark on our community. Donate a personalized brick to be showcased at the main entrance to the new Center of Excellence in Autism and Developmental Disorders, opening August 2021 on the Spring Harbor Hospital campus in Portland, Maine.

These commemorative bricks make an ideal gift and are a wonderful way to honor accomplishments and milestones in the lives of your friends and family. Your gift will provide crucial funding to help Maine Behavioral Healthcare better serve the more than 40,000 children and adults across Maine who have been diagnosed with autism or another developmental disorder.

Proceeds benefit Maine Behavioral Healthcare's \$7.35 million capital campaign to construct a 28,000 square foot state-of-the-art Center of Excellence in Autism and Developmental Disorders. This Center will transform our existing programs by allowing us to serve clients across their lifespan, extending our reach to adults and very young children.

The Bricks of Opportunity Campaign is a new initiative that will enable our community to assist with the construction while creating a timeless honorarium or memorial. These engraved bricks will become a lifelong tribute to each person who invests in a brick and supports the Center of Excellence at Maine Behavioral Healthcare.

Order by October 1, 2021 to guarantee installation in November, 2021.
